Professional Summary

Full-Stack Python Developer with hands-on experience in building responsive web applications using HTML, CSS, JavaScript, and Python with SQL databases. Experienced in AI-assisted development using AI agents and LLM-based tools to build and improve websites and applications. Experienced in deploying live projects using GitHub and Vercel. Strong problem-solving skills with a passion for building clean, functional, and user-friendly web solutions.

Technical Skills

Front-End*:* HTML5, CSS3, Bootstrap, jQuery

Programming*:* JavaScript, Python

Database*:* SQL, MySQL

AI Development*:* AI Agents, LLMs, AI-Assisted Development, Prompt Engineering, Intelligent Automation

AI Development Tools*:* Antigravity IDE, Lovable, Claude, GitHub Copilot, Codex, V0, ChatGPT

Tools & Platforms*:* Git, GitHub, VS Code, Vercel, Replit, Shopify

Projects

REKHA EYE HOSPITAL (REH) | Full-Stack Appointment System | **Live**

- Built a healthcare appointment system using React, Flask, SQLAlchemy, PostgreSQL, JWT & REST APIs.
- Developed dynamic slot booking, doctor schedules, admin dashboard, rescheduling, cancellation & analytics.
- Integrated WhatsApp/SMS notifications using Node.js, whatsapp-web.js & Puppeteer; deployed on Vercel & Railway.

SMARTINVOICE | Full-Stack AI-Powered Invoice & Expense Automation Platform | **Live**

- Built an AI-powered invoice automation platform using Python, FastAPI, PostgreSQL, OCR, LLMs, Celery & Redis to automate invoice processing, data extraction, validation and expense tracking.
- Implemented PDF/image upload, AI-based structured extraction, duplicate detection, payment tracking, due-date monitoring and automated email reminders using background jobs.
- Developed React/Vite dashboard with REST API integration, JWT authentication, role-based access and financial reports; containerized and deployed the application using Docker.

BINANCE FUTURES TESTNET TRADING BOT— Python | **Link**

- Built a modular CLI-based trading bot to place **MARKET** and **LIMIT** orders on Binance Futures Testnet using Python.
- Developed automated trade execution logic using Binance Futures API for real-time order execution.
- Successfully tested real-time order execution in a Testnet environment.

SHOPIFY DEVELOPMENT — Apps, Themes & E-commerce Websites

- Developed **TestiCraft** and **FreeShip Pro**, both successfully approved on the **Shopify App Store**.
- Developed multiple Shopify themes, including **RIYAH**, a premium Online Store 2.0 theme, using AI-assisted development.
- Designed and developed **Homes Spun Store**, a complete Shopify e-commerce website, including product listings, collections, navigation, and theme customization.
- Managed Shopify store setup, customization, and feature enhancements to improve functionality and user experience.
